**NOTIFICATION DESCRIPTION (Including Details, Extent, and Reason for Change)**

**Note that this change does not affect the form, fit, function, quality, or reliability of the product.** The Safety Label attached to the Dongah Elecomm CWRS-4150A Power Shelf currently has the C-Tick regulatory compliance mark. There has been an ACMA regulatory update that requires the C-Tick mark and accompanying Z1123 supplier code number (SCN) to be replaced with just the RCM logo by no later than March 1, 2016. We are allowed to implement the change and begin using the updated labels anytime before the March 1 deadline so Dongah Elecomm will implement this label change beginning in mid-February 2016. Note that we comply with requirements for this change including National Registration listing, planned implementation date, and the marking specifications as follows:  
The RCM marking is at least 3mm height, the black logo on white background (to contrast well with the background), and the new marking does not include the SCN (Z1123).

**ALTERNATE PART (as applicable)**

**EFFECTIVE DATE (including Last Time Buy and conditions, as applicable)**

The new RCM Mark will be on all CWRS-4150A Shelf product manufactured beginning in mid-February 2016 (ahead of the March 1, 2016 deadline).

**Please acknowledge receipt of this PCN within 30 days of the delivery date or the changes within will be accepted by Dongah by default.**
